

## PRESS RELEASE

### Release Summary:

**Barboursville, West Virginia, October 24, 2016** - Expense Assist™, an integrated cloud-based Spend Management solution provider, today announced it has joined the WV Chapter of the HFMA (Healthcare Financial Management Association).

Gary Bohm, Expense Assist™ Founder & CEO, remarked, "I am thrilled for us to become a member of this highly regarded and important group of professional healthcare financial managers. We look forward to a long and mutually beneficial relationship. Our plan is to be a very active and engaged member serving this community".

Expense Assist™ is excited to help Healthcare Organizations in our region to become as competitive and financially sound as possible. We will achieve this by helping to simplify Spend and A/ P processes with automation that saves our WV organizations money and time.

We are driven to bring our software platform tools, which enable enhanced visibility and management over suppliers, purchasing, invoices, contracts and spend, to this community. Budget threshold and contract expiration alerts, automatic invoice discrepancy and line item level visibility, supplier dispute and supplier performance management, decision support and much more will empower time utilization and cost saving decisions needed to improve WV healthcare profit margins.

"I was shocked to discover that even great Healthcare organizations struggle to retain the revenue they earn. They are very good at what they do, following their mission and at delivering what they promise. Yet, they still experience this enormous challenge of revenue retention." said Gary, "So I was resolved to create a solution and team to address this formidable issue. That's exactly what I have done. We've crafted a product that will help today's organizations retain more of the revenue they earn along with a team of experts that will serve above and beyond our groundbreaking technology. The most exciting part is these organizations will retain more of their revenue because Expense Assist™ will pay for itself."

### About Expense Assist™

*Expense Assist™ is the only solution that allows organizations to quickly identify actionable savings opportunities across every area of spend and reduce the overall cost of operations through granular data mining, unprecedented visibility, automated analysis and a comprehensive alert structure. ROI's occur the moment data is applied to the database.*

*Expense Assist™ reveals the granular spend spectrum across the entire organization and identifies immediate, long term and sustainable savings opportunities. Additionally, greater revenue retention is created through our suite of Decision Support Tools in the important areas of Budgets, Suppliers, Invoices, Contracts and Spend.*

*Simply put, Expense Assist™ is the best way for organizations to save more of the revenue they earn while taking control of the challenging issues they face related to Spend Management. For more information, visit [ExpenseAssist.com](http://ExpenseAssist.com).*

## **About WVHFMA**

*West Virginia Healthcare Financial Management Association (WV HFMA) is a professional membership organization for providers, vendors and accountants involved in the strategic planning, financial and/or operational management of the healthcare delivery in West Virginia.*
